

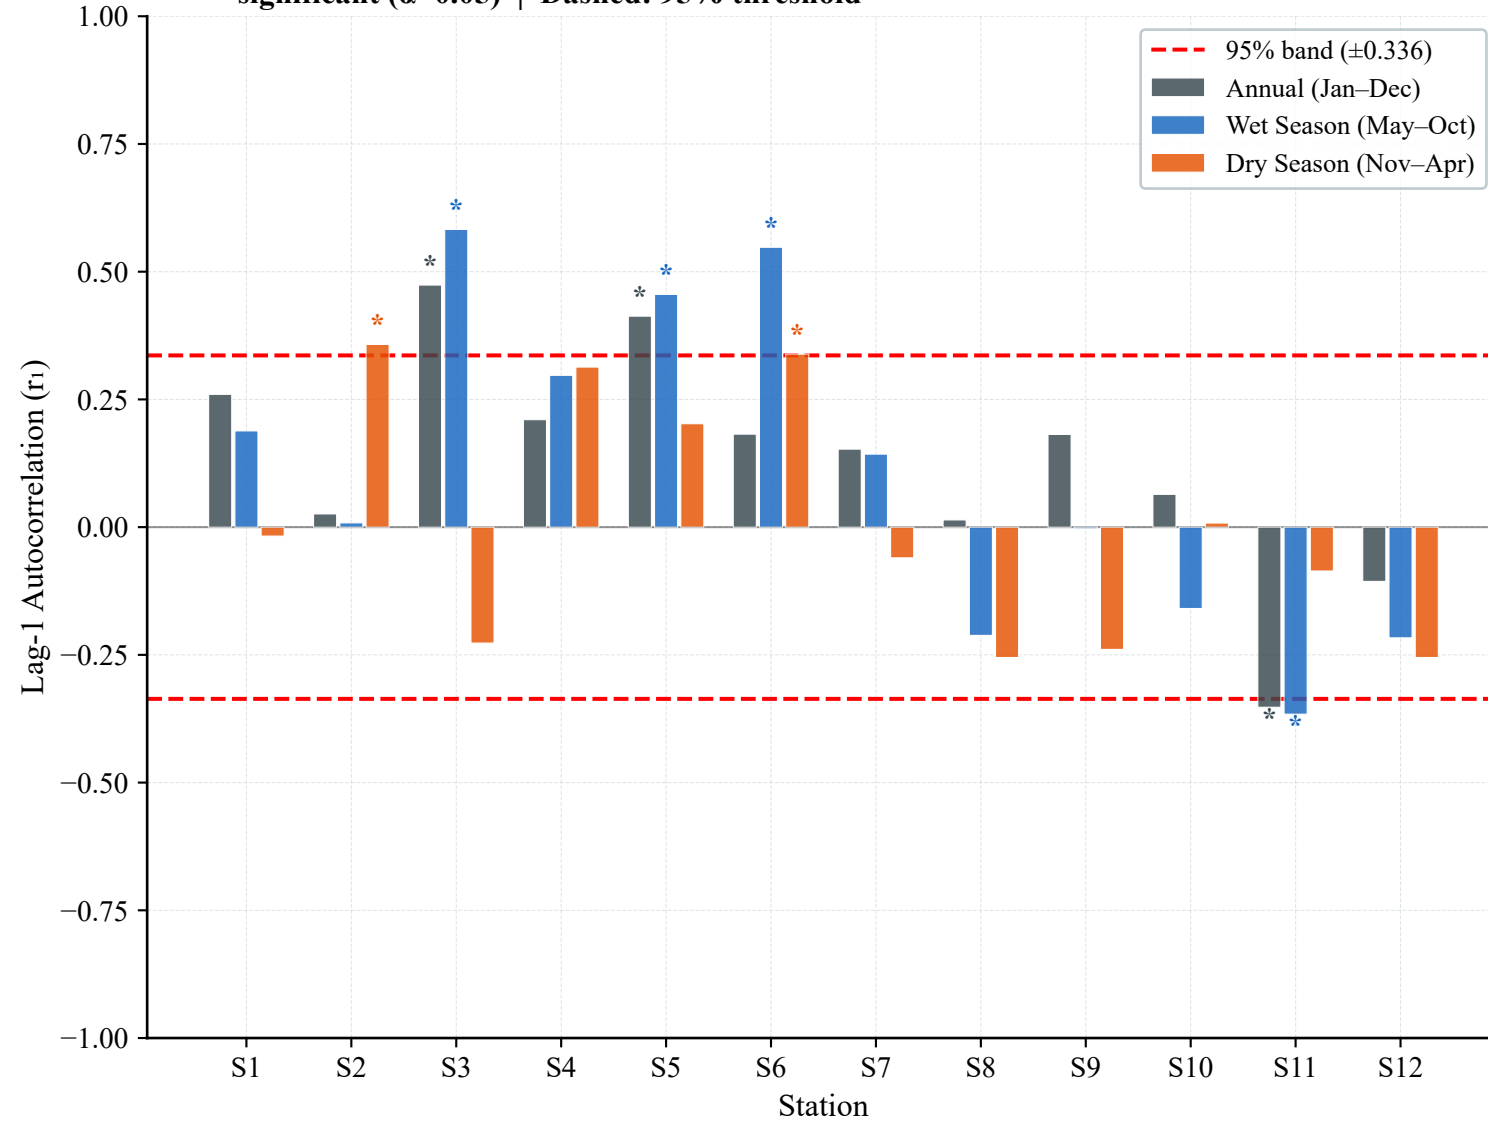

**Figure 6. Autocorrelation Diagnostics — 1981–2014**  
Significant autocorrelation → Modified MK required (Hamed & Rao 1998)

**(a) Lag-1 Autocorrelation — Annual, Wet, Dry**  
\* = significant ( $\alpha=0.05$ ) | Dashed: 95% threshold

**(b) ACF — Regional Mean Annual Rainfall (Lag 1–10)**  
Significant  $r_k$  → Modified MK essential
