

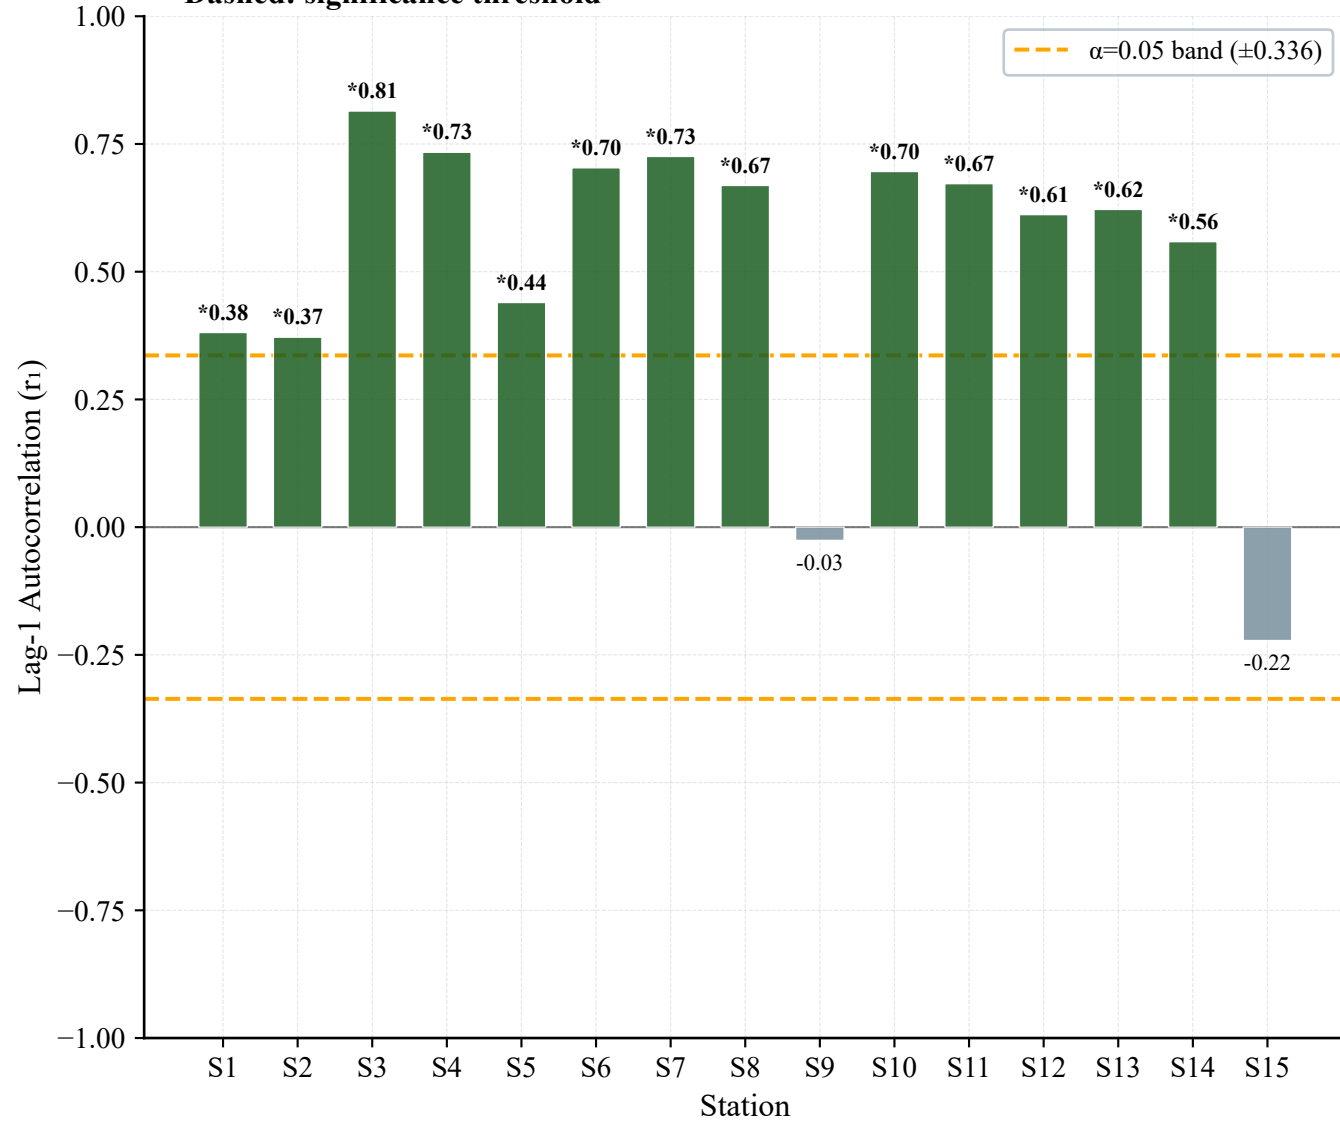

Figure 5. Autocorrelation Diagnostics — Annual Rainfall | 1981–2014

(a) Lag-1 Autocorrelation (r_1) — Annual Rainfall Significant autocorrelation → Modified Mann–Kendall Test required (Hamed & Rao 1998)

* = statistically significant ($\alpha=0.05$)

Dashed: significance threshold

(b) ACF — Regional Mean Annual Rainfall

Lag 1–10 | Determines need for Modified Mann–Kendall
